ASSISTANCE COVER

Should one of your workforce become seriously ill, injured or require in-patient treatment, you need to know they can access the appropriate medical attention. The quality of medical care varies throughout the world. Not every hospital has the medical facilities we consider appropriate depending on the circumstances. That's why we've introduced the Assistance Cover option, with two levels of cover to choose from.

EVACUATION - STRAIGHT TO AN APPROPRIATE CENTRE OF MEDICAL EXPERTISE

This is an option for anyone concerned about the quality of local healthcare. We offer cover for emergency evacuation, if medically necessary, to an appropriate centre of medical expertise equipped to deal with your employee's condition, wherever they are in the world.

REPATRIATION - OPT TO BE TREATED IN THEIR HOME COUNTRY

Our higher level of Assistance Cover gives you the choice of returning your staff to their national country of origin for treatment if, for medical reasons, the treatment is not available locally.

COMPARISON OF BENEFITS

Please note: This table provides a high-level summary only about the types of cover provided on the different plan levels. Benefit limits and exclusions may also apply. Please ask your sales adviser for further information.
